

Lenovo™ X100E Laptop Rechargecart

- Our Mini Laptop Cart has been reconfigured to hold and transport up to 27 MIDSIZED laptops (such as the Lenovo X100E)
- The 27 compartments have been enlarged to 8.5" H X 11" D making ample room to slide the nimble midsize laptop in place.
- Your laptops are smaller so why get a large cart like the Bretford or Datamation carts to work your gear.
- Based on our 20" X20" foot print this all steel cabinet has a fully locking front door with 2 flush locks.
- White interior shelves and adjustable shelf back planes insure that your laptops are centered on the shelves and always accesable.
- Power cooling is provided by a 50 CFM fan.
- 5" soft swivel and fixed casters with durable locks.
- The rear panel completely removes for IT integration and locks with security bolts to prevent unauthorized entry.
- Supplied with completely installed A/B timer that supplies 4 hours of charging to half of the cart at a time. 15 Amp circuit breaker and switch.
- 6ft UL cord for easy one outlet access

Lenovo X100e in red with wire separators removed
